Norfolk ranks among the leading cities in the country in the handling of Coal, Lumber, Cotton, and Fertilizer, and occupies a foremost position in the handling of Peanuts and Truck Stuffs. The magnificent rail facilities, with eight railroads radiating from this terminus, coupled with what nature has provided, the safest,

most accessible, most centrally located and largest harbor on the Atlantic Coast, causes the business interests of the world to look upon Norfolk of the future as the most important outlet for the products of this country, and the gate-through which shall be handled a large part of the imports.

Norfolk's favorable location, situated as it is, practically on Chesapeake Bay, and very convenient to the famous Virginia Beach, makes it one of the leading health and all the year round vacation resorts in the South. The average yearly temperature is 59°.

The City is well supplied with hotels, and the nearby resorts offer all the entertaining features that are usually found at famous watering places, attracting hundreds of thousands of excursionists annually.

The Ledger-Dispatch

In response to the question "Why should the merchants use the **Ledger-Dispatch** for making their announcements?" We received hundreds of replies from women in all walks of life—wives and daughters of influential, substantial citizens; school teachers, stenographers, mill operatives, etc. Here's what some of them say:

"Because more women read the **Ledger-Dispatch** than both the morning papers combined, I should say it is the best medium for the advertiser."

"Because the **Ledger-Dispatch** has that wide circulation without which the best advertising skill must fail of its objects."

"Because the **Ledger-Dispatch** reaches more people than any other Norfolk paper All of the leading merchants advertise in its columns."

"Because the **Ledger-Dispatch** is invaluable to the buying public. . . . It always has the most advertisements."

"Because the **Ledger-Dispatch** is read by the whole population in this section."

"Because the **Ledger-Dispatch** has a much wider circulation than any other Norfolk paper. I think it is the merchant's best friend."

"Because the **Ledger-Dispatch** is Norfolk's most popular newspaper."

"Because the **Ledger-Dispatch** is an absolute necessity to the people. It is quite the fad to refer to it for anything and everything they want."

"Because the **Ledger-Dispatch** goes into more homes in Tidewater Virginia than any other paper and because it reaches all classes, rich and poor alike."

"Because the **Ledger-Dispatch** is a bright, attractive, progressive paper. It is so very popular and has such a great circulation."

"Because the **Ledger-Dispatch** is read by everybody. I believe it is read by ten times more people than any other paper printed in our city."

"Because the **Ledger-Dispatch** brings the most people in closest touch with what the merchant has to offer."

"Because the **Ledger-Dispatch** is undoubtedly the best advertising medium."

"Because the **Ledger-Dispatch** is the most progressive and wide-awake paper this part of the South has ever had."

"Because the **Ledger-Dispatch** is an evening paper and more people have time to read it. It certainly is the best paper for the home."

"Because the **Ledger-Dispatch** is used by all of the big stores for their advertisements is pretty good reason why everybody who has anything to advertise should use it, too."

"Because the **Ledger-Dispatch** is a welcome visitor in every household. In our home it is pulled apart so that everybody can read it at the same time."

"Because what is advertised in the **Ledger-Dispatch** is never missed—everybody reads it. It is the best paper going."

"Because every issue of the **Ledger-Dispatch** is looked for and read by everybody in this territory."

"Because the **Ledger-Dispatch** has a wide-spread circulation in our own and sister states."

The Norfolk Landmark

Daily, Morning, Except Monday

THE NORFOLK LANDMARK

Is the Leading Newspaper in Eastern Virginia and Carolina

CIRCULATION

The Landmark has a substantial and steadily increasing circulation. Worth many times the rate per inch it asks. This statement is borne out by the fact that the Landmark has never known a period of financial embarrassment since its inception. Out of 22,502 daily papers in the United States, only 121 are awarded the "Gold Marks" by the American Newspaper Directory. The Landmark is the only paper in Virginia with the honor. The "Gold Marks" cannot be bought. They mean substantiability and influence. It takes merit to win this particular rating. Such papers as the New York Herald, the Brooklyn Eagle, New York Evening Post, Chicago Tribune, Pittsburgh Dispatch, are wearing this badge of honor with the Landmark.

THE LANDMARK'S CONTEST

The Landmark closed December 4th a highly successful Subscription Contest, by which it added several thousand yearly Paid-in-Advance Subscribers. This addition to its circulation was made possible by an outlay of nearly Fifteen Thousand Dollars.

High Standard in All Departments

Its literary standard is high in all of the various departments. It is the most influential journal in the Eastern part of Virginia. It excludes from its columns a great deal of the best paying advertising in the country because of the questionable character of the business offered. Its large local business proves how valuable and necessary for their welfare and prosperity the merchants and people generally of Norfolk and vicinity regard its advertising columns

Its Aim is to Give The News

Local, State, National and Foreign, in a Clean, Compact and Attractive Form

Norfolk Real Estate Department

REALTY VALUES are the pulse of the community, and as such are so generally recognized that no well-balanced investor will consider any place where the owners do not have faith in their own holdings . . .

Future promise and present or possible income are the influences which govern real estate purchases. Speculation sometimes runs up prices beyond actual values, but these conditions do not extensively exist. Panics and prolonged dull business, depress values during these periods, but the place to have faith in and to put your money in, is the one that witnesses enhancement in prices, after renewal of activities . . .

The whole of Tidewater Virginia, with Norfolk as the central figure, illustrates the soundness of the above arguments, for while this section has experienced several periods of trade depression, in common with the whole country, real estate has ever remained the favorite investment, and always took an upward turn as soon as the skies brightened . . .

The stability and enhancement of values could be shown in numberless instances of ancient and modern history, but the following will serve to illustrate the situation :

A prominent corner property fronting 91 feet on Main street and running back 630 feet, was sold in 1859 for \$15,000. While two streets now have their beds through this property and the city owns a large portion of it, the remainder was assessed for \$211,945 in 1900. The various sub-divisions today, would bring at auction not less than \$750,000 . . .

Granby street testifies to local faith in real estate, along its entire length. One lot sold in 1906 for \$80,000 ; one-half of it now yields \$12,000 per year net on leasehold . . .

In 1903, fifty-five feet brought \$22,000. Four years after it sold for \$115,000.

Total sales in 1908, \$8,376,893 . . .

Plain Talks on Fertilizers

How to Get the Greatest Possible Yield per Acre

It is a well-known scientific fact that in order to produce the very greatest possible yield from any soil it must contain an *actual excess* over and above all demands that can possibly be made on it by the plants.

sold to Southern farmers last year; and every year the demand becomes greater.

The best results in producing corn, the good old stand-by crop of the South, follow the application of 200 to 300 pounds of the right

Many farmers will feed their stock as much nourishing food as they can possibly assimilate, yet will starve their crops on the mistaken notion that they are "economizing" on fertilizer. The experiences of farmers, government experts, and agricultur-

alists everywhere confirm the fact that plants, like animals, need the fullest possible amount of nourishment that they can obtain if they are to be

developed to the utmost.

The economy in fertilizers is not in the amount used but in the ratio of quality to cost. Virginia-Carolina Fertilizers are the best in the world for the least money. More than one million tons were

fertilizer. Virginia-Carolina Fertilizers will greatly "increase your yields per acre" of corn or any other crop, even on poor land—and the most wonderful results are produced through its use on good land.

Write today to the nearest office of the Virginia-Carolina Chemical Company for a copy of their latest Year Book or Almanac, a large 130-page book of the most valuable and unprejudiced information for planters and farmers.
